

Tacbot

A portable Table-top testing solution for Smart Gadgets & POS

WOULD YOU LIVE IN A WORLD OF **ILL-TESTED PRODUCTS?**

SMART DEVICES

Smartphones can annoy you..

30% of phones were found to develop problems with the top portion of their touchscreen after approximately 24 months of use.

POINT OF SALES

POS Testing is challenging...

Satisfaction levels of the customers visiting retail stores have also declined due to the multiple issues - reported by American Customer Satisfaction Index 2019-20

DON'T WORRY **WE CAN SOLVE IT.**

Tacbot VALUE PROPOSITION

Tacbot is a tabletop plug-and-play, commercial off-the-shelf solution for robotic testing automation of Human Machine Interfaces (HMI) in Smart Mobile Phones, POS machines, Wearable gadgets & more...

It has **five** key aspects that offer a clear edge over competition

Absolutely safe & compatible

Easy to use, handles, program & operate

Works 3x faster and 3x longer than a human

Wide variety of Devices are supported

Extremely cost effective and error free

THINK SMART...

TacboT is designed to remove all the pain points related to the scalability of testing device.

Easy to Handle

You can carry this anywhere: Work From Home, quick setup and light weight highly efficient table top operation.

Easy to program

Easy-to-learn API based controllability ensuring connectivity with multiple test frameworks

Absolute freedom to Scale

Both Software & Hardware frameworks are modular - Easy integration & scalability

INTEGRATE WITH YOUR AUTOMATION PLATFORM & DO MORE...

ANALYTICS BASED DECISIONS

TEST CASE GENERATION

Automation Framework

OCR & VISION BASED EVALUATION

CLOUD INTEGRATION

Inside Box	
TacBot Robot	1 Unit
Mobile Mount	1 Unit
User Manual	1 Unit
Power Adaptor	1 Unit

SUPPORTS DIVERSE MOBILE TESTINGS FORMATS

- UI/UX testing
- Random use testing
- Functionality testing

SIMULATES USER ACTIONS

- **Finger gestures** : Tap, Move, Horizontal/ Vertical Scroll, Drag, Touch & Hold
- **Accessory Expansion** : Card swipe, insert, tap, multi-key operation, visual evaluation

IMAGINE what TacBOT can do for **your** product!

KEY SPECIFICATIONS

- Flexibility : 3 DOF
- Manipulator working plane : Horizontal
- Arm length : 300 mm
- Reach : 240 mm
- Range of motion of stylus : 20 mm (z-axis)
- Types of touch actions : Tap, Scroll, Swipe, Touch & Hold, Double Tap, Flick
- Stylus force options : 160, 240 & 360 g \pm 50 g
- Duration of touch : 0.2 sec to 5.0 sec
- Repeatability : \pm 0.5 mm
- Stylus tips : Bubble Tip (7 mm)
- Stylus tips life : 1,00,000 touches
- Continuous operation : 360 Hours
- Workspace Area (Rectangular) : 7" diagonal
- DUT mounting plate dimension : 300 x 300 mm

-  Equipment type : Table top
-  Power requirements : 110V/60Hz, 220V/50Hz
-  Power consumption : 50 W
-  Connectivity : USB 2.0 B type
-  Controllability : Telnet API control
-  Gross weight : 6 Kg
-  Operating temperature : 10°C to 45°C
-  Humidity : Upto 60RH

SUPPORT & SERVICE

- 1 year comprehensive warranty
 - Initial setup support with 2 hour online training
 - Up to 5 hours of free online support during warranty
-
